And so, we have Mekimeki Oukoku's very first compilation!

All of my works are going to be crammed in here, so I believe there will be a large amount of parts that are painful to look at.

I didn't understand much about making manuscripts back then...

It wouldn't be an exaggeration to say that NanoFate taught me how to create manga.

I respectfully packed in all of Mekimeki's early stories! It'll slowly get easier to read (lol), so please enjoy!

## A Magical Girl Has Come of Age!? .... 8/18/2008

The very first NanoFate book I released. I didn't understand the characters quite well at the time, so Hayate-chan's kansai dialect isn't refined enough, and Nanoha keeps going "nano! nano!". It's incredibly regrettable.

By the way, it looks like Hayate-chan is worthy of pity from the very beginning.

SIGH
What am I going to do?
I wonder what would make her happy?
